The aim of the VASGBI Linkperson Scheme is to maintain links and enhance communication between VASGBI members throughout the UK and Ireland.

The VASGBI Committee undertakes many important initiatives on behalf of the organisation and its members. To be effective these require the continuing participation of and input from all members. This is a two-way process and not only allows for dissemination of important information to the members, but also allows more efficient distribution of surveys and to hear your views.

The aim is for every hospital/vascular centre, to have one Linkperson, who will be your VASGBI representative. Names will be published in the “Linkperson directory” in the members section.

If anyone is interested in becoming a Linkperson then please contact Jane at jane.heppenstall@vasgbi.com.
